CHRISTIE CZAJKOWSKI EXPOSED: RADICAL ACTIVIST, CHRONIC LIAR

SAN DIEGO, CA – Christie Czajkowski is a failed anti-illegal immigration activist who has been fired from at least eight (8) different Minuteman groups over the past 14 months, including MCC, MMP, MCDC, SOS, Friends of the Border Patrol, SDMM and other mainstream anti-illegal immigration groups.

She has been fired and banned from our groups for the following reasons:

- Criminal History including 3 Misdemeanor Convictions in Utah (two for disturbing the peace)
- Chronic Drug Use (medical marijuana?)
- Unsafe weapons handling at the border
- Insubordination and disobedience to Group Leaders at the border and public rallies.
- History of mental illness (Sharp Mesa Vista Mental Hospital)
- Radical public behavior including burning and defacing Mexican flags
- Aggressive, confrontational behavior towards pro-illegal alien groups and rallies in public.
- Not following published rules and guidelines for Minutemen members
- Confrontational behavior with Law Enforcement
- Filing False Police Reports
- Erratic behavior, severe depression, and suicide attempts and gestures.
- Treason: Openly working with pro-illegal alien activists to attack innocent Americans who do not side with her and her radical agenda.
- Teaming up with radical activist Russ Dove and his known racist group in Tucson

In addition to the above character issues, she currently has a false \$700,000 lawsuit pending against Jeff Schwilk from her trespassing incident in his house on Feb 4th. She falsely claimed he assaulted her when she refused to leave his property. Oceanside Police also had to respond to Schwilk's home on Jan. 20th when she showed up uninvited at 2am and threatened to commit suicide in his driveway. They had to physically remove her from his property when she refused to leave and after she tried to break into Schwilk's house.

She has attacked Minutemen, stalked them, and has falsely accused them of numerous crimes over the past nine months. Legal action is being taken against her for her illegal stalking and harassment activities.

Now she is trying to imply that Minutemen vandalized camps in Rancho Penasquitos both in November and on Jan. 27th, a claim that is completely false and known by SDPD who have fully investigated the alleged vandalism. Law Enforcement is well aware of her activities and is monitoring her actions.

She is an unemployed part-time mother of two young daughters who lives in a large rented house in Chula Vista paid for with donated money. She is currently President of the floundering internet group TruthBrigade.org where Russ Dove is the Vice President, where they beg for donations to pay their living expenses. They have openly expressed their goal of trying to bring down the Minutemen groups. They tell the public that the Minutemen are too passive in their actions and people must become radical in their activism to stop the invasion of the illegal aliens.

Russ Dove is a convicted felon and has also been recently convicted of another crime in Tucson, AZ. No sane illegal immigration activist in the nation has anything to do with Christie Czajkowski, Russ Dove, or their "Truth Brigade".

The media is now being used to promote the lies of these anti-American activists against good, law-abiding anti-illegal immigration volunteers in Southern California.
